

## Technical Appendix D: School District Characteristics

Drawing from the findings discussed in Chapter 5 of this report, below is a list of each school district in Kansas that had sufficient data to generate an estimated General Fund revenue allocation for the current and subsequent four years. The numbers presented in columns 4-6 are expressed as decimals and when multiplied by 100 equal the percentages of the student population for those need categories.

## Technical Appendix E: School District Cost Estimates and Weights

Drawing from the findings discussed in chapter 5 of this report, below is a list of each school district in Kansas and the associated estimated base cost per pupil, gap closure per pupil cost, and associated index values for regional cost variation, overall size, and student demographic composition. These tables would apply for the latest year of financial data available which was the 2016-17 school year. The numbers presented in columns 4-6 are expressed as decimals and when multiplied by 100 equal the percentages of the student population for those need categories.
